

Impressive Performance and Convenience

The Winterhalter PT-500 pass-through dishwasher delivers excellent cleaning results, quickly and efficiently.

Speed and Cleaning Result

The quick way to cleaner dishes thanks to:

Short programme times

- Choice of short, standard and intensive programme, depending on soiling levels
- The short programme can wash up to 60 racks per hour

Active energy management

- Reduces the heating time by up to 50 %, making the dishwasher ready for operation faster
- Shorter heating times between wash cycles

Elliptical wash fields

- Maximum area coverage thanks to special jet geometry and positioning
- Outstanding wash results in every corner of the dishwasher

Quadruple filtration system

- Food residue is trapped by a removable sieve and strainer
- Fine impurities such as coffee grounds are removed by the centrifugal force of the Mediamat
- The pump is protected against mechanical damage by an inlet filter

User-friendly and Hygienic

Exceptionally easy to operate thanks to:

Colour-coded display

- Displays the machine's status: heating, washing, standby
- Single-button programme start

Control functions

- Quick error recognition thanks to the display symbols e.g. lack of detergent or rinse aid
- Tank and boiler temperatures can be shown on the display at any time
- Leak sensor to monitor water leaks

Convenient operation and hygienic concept

- Ergonomic hood handles and automatic hood start for convenient handling
- Deep-drawn tank, hygienic rear panel and hygienic rack guide as well as a self-cleaning programme make it easy to clean the inside of the dishwasher

Standard and Optional Features

PT-500	
Speed and cleaning result	
Active energy management	●
Elliptical wash fields with special jet geometry	●
Filtration system with sieve, strainer, pump inlet filter and Mediamat	●
Integrated detergent dosing device	○
Integrated rinse aid dosing device	●
Integrated softener	○
User-friendly and hygienic	
Electronic control unit with a colour-coded display	●
3 washing programmes (short, standard and intensive)	●
Washing programme adjustment via parameters	●
Display of tank and boiler temperatures	●
Self-cleaning programme	●
Detergent container empty indicator (for integrated detergent dosing device)	●
Rinse aid container empty indicator	●
Lack of salt error message (with integrated softener)	●
PIN-protected chef level	●
PIN-protected service technician level	●
Integrated error logbook	●
Hood with locking position	●
Automatic hood start	●
Deep-drawn hygienic tank	●
Hygiene tank heater	●
Hygienic rack guide	●
TwinSet (combination of 2 PT-500 machines)	○
Low temperature warewashing system effect for glasses*	○
Low temperature warewashing system effect for dishes*	○
Thermostop for hygienic safety	●
Drain pump	●
Rinse booster pump	●
Leak sensor	●
Multiphasing	●
Transfer strip for external dosing devices	●
