

## 10 Dining

### *Authentic Indian Diner*

#### 10 Dining, Indian Restaurant in Tilbury Essex.

10 Dining is a family run restaurant, though not your normal curry house, the recipes are authentic Indian home cooking handed down through four generations, using the finest fresh ingredients.

#### The Counter

Owner Sujit asked us to create a high quality, robust counter to deliver the versatile menu. The main counter, is a fully welded stainless steel construction with one heated and two refrigerated deli wells, hot cupboard and two tier heated gantry.

This counter was then wrapped in a smooth curved Corian facia and worktop giving the effect of a seamless integration with the adjacent walls.

The low level visual displays were implemented with glass frontage and low voltage LED lighting, shown here with polished serving bowls.

#### The Cookline

The cookline has an array of equipment giving the chef a huge amount of versatility, needed to produce high quality food both the restaurant and external functions such as weddings and banquets.

From left to right we have a 10 grid Rational, a Frima 112+, 2 ring Lincat hob, Robata Flame grill (mounted on a low level Gram counter, with drawers) and a Clay Ovens Tandoor oven.
